FINANCIAL ASSISTANCE IS PROVIDED ON A SLIDING SCALE TO:

- Individuals with an annual household income up to 500% of the annually published Federal Poverty Guidelines.
- Individuals with extenuating circumstances, including recent unemployment, extraordinarily high medical bills, and uninsured catastrophic health care costs, will also be considered.

The average generally billed amount is the maximum amount that can be collected from a patient who qualifies for financial assistance or as otherwise allowed under the Vail Health financial assistance policy, regardless of the percentages shown above.

The U.S. government updates the federal poverty limits annually and as a result the Vail Health financial assistance policy is updated accordingly.
