[Log into your Vail Health Cerner Portal](#)

To print a PDF of your past results

1. Click on "Health Record" on the left side of the page or in the three-line menu at the top of your screen
2. Click "Results"
3. Using the date fields, select the date range you would like to capture and press "Submit"
4. After the results have loaded onto your screen, press "Print" in the upper right, and it will print everything.

To save a PDF of your medications, procedures, family history or social history

1. Click on "Health Record" on the left side of the page or in the three-line menu at the top of your screen
2. Click on the corresponding category in the left-hand navigation
3. Press "Print" in the upper right, and it will save everything to a PDF.

To download documents

1. Click on "Health Record" on the left side of the page or in the three-line menu at the top of your screen
2. Click on the corresponding category in the left-hand navigation
 - a. "Clinical Notes" contain notes written by your care team about your visits, treatment, progress and care plan.
 - b. "Radiology" are reports from imaging exams such as X-rays, CT scans, MRIs, mammograms and ultrasounds.

- c. "Pathology" are reports from laboratory examination of tissue or cells, such as a biopsy or surgical specimen.
 - d. "Visit Summaries" are an overview of a specific appointment or hospital visit, including information such as what was discussed, instructions and next steps.
3. Click the "Download" button next to the specific document you would like to keep.
